(Affiliated to JNTU, KAKINADA)

BHIMAVARAM-534204

(2022-2023)

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

S. R. K. R ENGINEERING COLLEGE BHIMAVARAM

CERTIFICATE

This is to certify that this is a bonafide work on “**BEAUTY BLOG WEBSITE**” for and has been submitted by Miss. Modalavalasa Bhanu Saraswathi(**21B91A05J9**), Miss. Mohammad Hasina(**21B91A05K0**), Miss. Mohammed Shaheda Fathima(**21B91A05K1**) as a **Web Application Development Using Full Stack** laboratory report, in partial fulfilment of the requirements for the award of the Degree of Bachelor of Technology in Computer Science and Engineering, during the academic year 2022-2023. The candidate worked right under my Supervision and guidance.

Lectures In-Charge

Dr.K.ARUNA KUMARI

Miss.M.JANAKI DEVI

Shri.K.HARI KRISHNA

Assistant Professor
Department of CSE
S.R.K.R Engineering College
Bhimavaram.

Head of The Department

Dr. V.CHANDRA SEKHAR
Department of CSE
S.R.K.R Engineering College
Bhimavaram.

ACKNOWLEDGEMENT

We take immense pleasure in thanking **Dr. M. Jagapathi Raju**, beloved principal of S.R.K.R Engineering College, Bhimavaram, and **Dr. V. Chandra Shekar**, esteemed **Head of the Department (C.S.E)**, for having permitted us to carry out this Web Application Development Using Full Stack mini project work.

We wish to express our deep sense of gratitude especially to our project Guide, **Dr. K Aruna Kumari, Assistant Professor, Shri. K Hari Krishna , Assistant Professor, Miss.M Janaki Devi, Assistant Professor**, for their guidance and useful suggestions, which helped us in completing the project work, on time.

Finally, yet importantly, We would like to express our heartfelt thanks to our beloved parents, faculty, friends/classmates for their help, and our wishes for the successful completion of this project.

Modalavalasa Bhanu Saraswathi

- About

SOFTWARE REQUIREMENTS

1. Text Editor: Visual Studio Code, Notepad
2. Front End: HTML,CSS
3. Internet Browser: Google Chrome/Mozilla Firefox/Internet Browser

HARDWARE REQUIREMENTS

1. Processor-Intel Core I5
2. RAM-8GB

TECHNICAL STACK

HTML

The Hyper Text Markup Language or HTML is the standard markup language for documents designed to be displayed in a web browser. HTML elements are the building blocks of HTML pages. web browser receive HTML documents from a web server or from local storage and render the documents into multimedia web pages. HTML describes the structure of a web page semantically and originally included cues for the appearance of the document. The file should be saved with extension.html.

CSS

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation of a document written in a markup language such as HTML or XML CSS is designed to enable the separation of content and presentation, Including layout, colors, and fonts. This separation can improve content accessibility; provide more flexibility and control in the specification of presentation characteristics; enable multiple web pages to share formatting by specifying the relevant CSS in a separate. The file should be saved with extension .css.

JAVA SCRIPT

JavaScript, often abbreviated as JS, is a programming language that is one of the core technologies of the World Wide Web, alongside HTML and CSS. As of 2022, 98% of websites use JavaScript on the client side for webpage behavior, often incorporating third-party libraries. JavaScript is a high-level, often just-in-time compiled language that conforms to the ECMAScript standard. The javascript file should be saved with extension is .js.

VIEW OF CONTACT PAGE:

The screenshot shows a web browser window with multiple tabs. The active tab displays a contact form titled "Contact Form". The form is set against a pink watercolor background. It contains the following fields:

- First Name:** A text input field with the placeholder text "Your name..".
- Last Name:** A text input field with the placeholder text "Your last name..".
- Country:** A dropdown menu currently showing "INDIA".
- Subject:** A large text area with the placeholder text "Write something..".
- Submit:** A green button labeled "Submit" located at the bottom left of the form.

The browser's address bar shows the file path: `file:///C:/Users/HASINA/Desktop/contact.html`. The Windows taskbar at the bottom indicates a temperature of 24°C, mostly cloudy weather, and the date/time as 21:27 on 02-01-2023.

<h1 style="color:red;">About</h1>

<h1 style="font-size:20px"><i>_{Primers are used on the face before makeup is applied, creating a typically transparent, smooth layer over the top of the skin, allowing for makeup to be applied smoothly and evenly. Some primers may also be tinted, and this tint may match the wearer's skin tone, or may colour correct it, using greens, oranges and purples to even out the wearer's skin tone and correct redness, purple shadows or orange discolouration respectively.oundation is a cream, liquid, mousse or powder product applied to the entirety of the face to create a smooth and even base in the user's skin tone. Foundation provides a generally lower amount of coverage than concealer, and is sold in formulations that can provide sheer, matte, dewy or full coverage to the skin.}</i></h1>

Eyebrow pencils, creams, waxes, gels, and powders are used to color, fill in, and define the brows. Eyebrow tinting treatments are also used to dye the eyebrow hairs a darker colour, either temporarily or permanently, without staining and colouring the skin underneath the eyebrows.

Eyeshadow is a powder, cream or liquid pigmented product used to draw attention to, accentuate and change the shape of the area around the eyes, on the eyelid and the space below the eyebrows. Eyeshadow is typically applied using an eyeshadow brush, with generally small and rounded bristles, though liquid and cream formulations may also be applied with the fingers

Lip products, including lipstick, lip gloss, lip liner and lip balms, commonly add color and texture to the lips, as well as serving to moisturise the lips and define their external edges. Products adding colour and texture to the lips, such as lipsticks and lip glosses, often come in a wide range of colours, as well as a number of different finishes, such as matte finishes and satin or glossy finishes. Other styles of lip colouration products such as lip stains temporarily saturate the lips with a dye, and typically do not alter the texture of the lips. Both lip colour products and lip liners may be waterproof, and may be applied directly to the lips, with a brush, or with the fingers. Lip balms, though designed to moisturise and protect the lips (such as through the addition of UV protection) may also tint the lips.</sub></i></h1>
